

Know the Score

using raw scores to evaluate team progress

Celebrate!
Your team accepted the challenge and made it to tournament!

Guilt-Free Team Management

Don't allow your team to include illegal solutions.

Factors That Affect How An Appraiser Scores

- Expectations**
 - Creativity
 - Relevance
 - Effort
- Experience**
 - Experienced Appraisers
 - Inexperienced Appraisers
 - DI Alums
- Enjoyment**
 - Challenge Requirements Apparent
 - Clear/Concise Performance
 - NO Irrelevant glitz
 - Humor

Purpose of Raw Scores

subjective scoring means the opinion of the Appraisers

the ONLY way teams receive honest, unbiased feedback

gaging where your team stands in the creative problem solving process

raw scores and stickies are NOT intended to show where the team stands in regards to other teams

Sticke Notes

Also referred to as love notes to the team

Positive feedback to your team

Stickies should NOT be equated to score.

Think Like an Appraiser

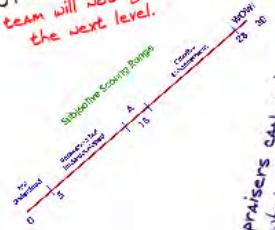

Appraisers like performances with clean beginning, middle and end.

Subtlety is lost on Appraisers

Give more points to creative elements that are integrated into the performance

There is no place to score unrelated creativity!

Scores in the lower range DO NOT necessarily mean that the team will not qualify for the next level.

Your Raw Scores

DI scores are not like grades that students receive in school!

Appraisers can only score what they see/hear!

Use the Tournament Data Form to direct the appraisers to your points.

Effort can only be rewarded if it is apparent on the stage AND if it is relevant to the solution.

The TDF is NOT a creative writing exercise!

Teams should never expect points for being cute or "pity points."
